

Dear FCC; I am a subscriber to XM Radio and I want to be able to receive local content via XM Radio including local news and weather. There are several areas in rural Pennsylvania where I live and work that broadcast radio cannot be received. XM is the only radio that I can reliably listen to in my car. Please protect my ability fully utilize the medium that I fully pay for and not allow others to limit my ability because they do not choose to provide the services I need, as XM Radio does. I respectfully urge the FCC to reject the NAB's petition 04-160. Thank you for your time.
Richard Edens.
